LONG-LASTING SHAPE**

COLLAGEN DENIM

CONVERGING SCIENCE AND STYLE

Crafted to perfection, we designed **COLLAGEN DENIM** with a desire to engineer a denim fabric that does more, a pair of jeans to give that extra touch of luxury in everyday wear.

The premium fabric incorporates UMORFIL® Bionic Fiber which is infused with collagen peptides—known for their moisturizing and skin-soothing properties.

COLLAGEN DENIM has excellent shape recovery and exceptional softness paired with functional benefits like and moisture management while being verified as skin-friendly. It's the ultimate fabric for all-day comfort and luxury.

Moisture Management:

Collagen peptides help regulate skin hydration for all-day wear.

Sensitive Skin Friendly:

Tested and verified for delicate skin.

Enhanced Softness:

Naturally luxurious handfeel.

A Unique Hue of Indigo:

Beautiful color adding a touch of sophistication.

With **COLLAGEN DENIM**, we invite jeanswear to be an experience of beauty, well-being, and sustainability all at once. Discover the synergy of style, comfort and wellness thoughtfully crafted with advanced textile engineering.
